

## MyScienceWork is now indexing IOP Publishing: the publishing company of the Institute of Physics

**December 20th 2021, Paris, France** – Research management tech provider [MyScienceWork](#) (MSW) welcomes our latest partnership with [IOP Publishing](#), to index one of the largest collections of academic journals, books and conference series in physical sciences.

Effective as of December 2021, the partnership permits supplementary access to a comprehensive portfolio of scientific outputs, including conference proceedings and science news resources, with a focus on physics, materials science, biosciences, astronomy and astrophysics, environmental sciences, mathematics and education.

Commenting on this new agreement, MyScienceWork Managing Director Yann Mahé says, “This meaningful partnership highlights yet another important milestone for MyScienceWork in our journey to provide a unique access to one of the largest high-quality scientific outputs platforms. This expanded availability of physics and physical science research outputs will boost the discoverability of scholarly research, paramount for overall impact and subsequent reproducibility of scientific results.”

Bridget Pairaudeau, IT Director at Institute of Physics Publishing says: “We are delighted to add our content to the 90 million scientific publications on the MyScienceWork platform as it supports our mission to expand the world of physics by giving the international scientific community easy access to scientific publications.”

IOP Publishing is the latest inclusion to an extensive list of renowned publishers already indexed on the MyScienceWork platform including the names of Springer Nature, Karger, De Gruyter, Annual Reviews, EDP Science, Cairn amongst others.

### About MyScienceWork

The MyScienceWork scientific database is a free to use platform to share and look up academic papers, researchers and track research and research interests of academics. Hosting an average of a million visitors per month, the platform is a one-stop-source, open to undergraduates, post-graduates, researchers, PhD candidates, academic professionals and anyone from academia. Today, MSW [indexes multiple sources](#) representing over 90M articles and 12M patents, covering all scientific disciplines across all countries.

### About IOP Publishing

IOP Publishing is a society-owned scientific publisher, providing impact, recognition and value for the scientific community. Working closely with researchers, librarians and partners

worldwide, the not-for-profit society produces academic journals, books and conference series, with the aim of covering the latest and best research in the physical sciences and beyond. For more information, please visit <https://iopublishing.org/>.
